👉 He has 2/d barrel racing potential with the right rider!

👉 2k obo and will be VERY open to offers!

👉 great bloodlines!!

👉 just needs someone to finish him however they want!

✗ Had EPM around 3 years ago before I bought him. The previous owners caught it, and treated him and he has no issues and it doesn't effect him at all! Any questions about it feel free to PM me!

He also has been chiropracted I'd say he should get it once to twice a year. That's my opinion on all my horses though!

Crimson is very willing to please and is a looker as well. He will stand tied, good for farrier, loves the water! Calmest OTTB I've met! Pop a saddle on or jump on him bareback whatever you prefer! He's very sweet!
